# WELCOME

## to Digital Tech Summit 2022

Dear attendee,

A year's worth of preparation is over and finally we're here: two days of conference program filled to the brim with exciting events of the highest, international quality. Together with DIREC, DI-Digital, Dansk Erhverv, Dansk IT, IT-Branchen and Teknologiens Mediehus, all eight universities are hosting the Digital Tech Summit.

This year's theme is 'Building European Tech Resilience', which has become even more relevant since we began preparing for the summit last year. We are currently facing some massive global challenges, so it is time for decision-makers, experts and talents all over the world to join forces.

Digital Tech Summit is a two-day combined conference and exhibition with presentations and debates, stands and demos. The summit is targeted at researchers and practitioners. So what can you expect? A few key numbers to get us started: 350 speakers, 300 tech startups from Danish universities, over 80 exhibitors and, importantly, a host of excited visitors. With top researchers from eight Danish universities bringing cutting-edge knowledge in digital technology and applications, we want Digital Tech Summit to stand as one of the most important tech events and collaboration platform in the Nordics in 2022.

The purpose of Digital Tech Summit is to support Denmark's transformation as a digital society, and to elevate our existing strengths in areas such as health and sustainability, by utilizing the potentials in all the fields of technological research that is presented at this year's event. By bringing together top researchers, business executives, public leaders, entrepreneurs and young talent, we want Digital Tech Summit 2022 to be a space for agenda setting visions, new ideas, debates and partnerships to flourish. Only by working together, can we create the breakthroughs that will save the climate and drive growth and prosperity in the future.

We are happy that you have joined Digital Tech Summit, and wish you a great experience!

Best regards,  
The Digital Tech Summit Team and Partners

## ORGANIZERS

### PROGRAMME

## TUESDAY

Keynote speakers	4
Energy, Smart Cities and Greentech – twin transition	9
Foodtech and Agrotech	9
Healthtech, Life Science, Sport and Leisure	10
Transportation, Maritime and Logistics	11
Cybersecurity, Trust and Fintech	12
Smart Manufacturing	13
Democracy, Govtech and Digital Regulation	14
Technological megatrends and Emerging technologies	15-16
Business Inside Technology	18
Digital Talents – Skills of tomorrow	21
Tech Entrepreneurship – Startup Nation Denmark	21

## VENUE

Bella Center Copenhagen – Hall C	38
Catering	38
Lounge Areas	38
Innovation Zones	38
Networking and Match Making	38

### PROGRAMME

## WEDNESDAY

Keynote speakers	5
Energy, Smart Cities and Greentech – twin transition	26-27
Foodtech and Agrotech	28
Healthtech, Life Science, Sport and Leisure	29
Cybersecurity, Trust and Fintech	30
Smart Manufacturing	31
Democracy, Govtech and Digital Regulation	32
Technological megatrends and Emerging technologies	33
Business Inside Technology	34-35
Digital Talents – Skills of tomorrow	36
Tech Entrepreneurship – Startup Nation Denmark	37

## TOPICS

# KEYNOTE SPEAKERS TUESDAY

## 9.00 Main stage

Grand Opening

**Annemarie Munk Riis**, CEO (Acting), Innovation Fund Denmark  
**Henrik C Wegener**, Rector, University of Copenhagen  
**Helena Lovegrove**, Director for Operations & Projects, DIGITALEUROPE  
**Matt Dugan**, Head of Innovation, Digital Incubator & Innovation, Novo Nordisk

Moderator:  
**Kim Stensdal**, Journalist and Head of Communications, Dansk IT / The Danish IT Society

## 9.35 Main stage

Changing the Quantum Game

**Florence Tinguely Mattli**, Ambassador of Switzerland in Denmark, Embassy of Switzerland  
**Marieke Hood**, Executive Director, Impact Translation, GESDA – Geneva Science and Diplomacy Anticipator  
**Jan W Thomsen**, Head of Department Niels Bohr Institute, University of Copenhagen  
**Basil Garabet**, President & CEO, NKT Photonics

Moderator: **Line Christa Amanda Sørensen**, Investor and CCO, Trifork

## 13:00 Main stage

Denmark – a Startup or Scale-up Nation?

**Shomit Ghose**, Investor & Entrepreneur, Clearvision Ventures  
**Dan J Gelvan**, PhD, CEO, t-syte Ltd.  
**Claus Zibrandtsen**, Managing Partner, People Ventures  
**Christel Piron**, CEO, PSV Core, PreSeed Ventures  
**Thomas Krogh Jensen**, CEO, Copenhagen Fintech

Moderator: **Lasse Vinther-Grønning**, Executive Director, Innovation Centre Denmark

## 13:50 Main stage

Presentation of Danish Championship in AI for students

## 16:15 Main stage

What is the promise of GovTech for our Future Societies and Welfare?

**Lars Zimmermann**, Co-Founder and Board Member, GovTech Campus Deutschland  
**Carsten Orth Gaarn-Larsen**, Senior Vice President, DTU, Technical University of Denmark  
**Arune Matelyte**, Co-founder & Manager, GovTech Lab Lithuania

Moderator: **Kiann Stenkjaer Hein**, Digital Strategist

## 17:15 STARTUP Main stage

Networking event for sponsors, exhibitors, partners and visitors – DJ and Drinks

# KEYNOTE SPEAKERS WEDNESDAY

## 9.00 Main stage

Going Green with Tech

**Alexander Holt**, Head of Emerging Opportunities and Partnerships, Digital Directorate, The Scottish Government  
**Hilda Lilje**, Head of Innovation, Tata Consultancy Services  
**Arne Flåøyen**, CEO, NordForsk  
**Sebastian Mernild**, Head of centre, Professor, SDU Climate Cluster

Moderator:  
**Kim Stensdal**, Journalist and Head of Communications, Dansk IT / The Danish IT Society

## 13.30 Main stage

The Digital State of Denmark

**Brian Mikkelsen**, Director, Dansk Erhverv – The Danish Chamber of Commerce  
**Rikke Hougaard Zeberg**, Director, DI Digital The Confederation of Danish Industry  
**Christel Schaldemose**, MEP, The European Parliament

Moderator:  
**Kim Stensdal**, Journalist and Head of Communications, Dansk IT / The Danish IT Society

## 16.00 Main stage

Digital Tech Dilemma Galore – count-down to solutions

**Frank Faurholt**, Director of Sales at Siemens Digital Industries, Factory Automation for Northern Europe  
**Mikkel Saxnæs Larsen**, Senior Manager, Supply Chain Intelligence, Novo Nordisk

Moderator:  
**Helle Rootzen**, CEO and Founder of andhero - Vice chairman at ATV's Digital Wise Men ATV

## 16.45 Main stage

Digital Tech Summit Grand Closing

**Per Bruun Brockhoff**, Vice Chancellor IT University of Copenhagen  
**David Budtz Pedersen**, Professor, Aalborg University  
**Kim Stensdal**, Journalist and Head of Communications, Dansk IT / The Danish IT Society

Main stage is sponsored by Otto Mønsted Fonden and Danish Data Science Academy.

Keynote programme is organized by Dansk IT and ATV.

# TAKE A BREAK AT ORANGU CAFÉ

**OUR ORANG UTAN COFFEE  
IS STRAIGHT FROM THE FOREST  
AND MADE FROM BEANS,  
SUSTAINABLY GROWN  
IN A PROTECTED NATURAL  
RESERVE IN SUMATRA,  
INDONESIA.**

In need of a little breather before venturing back to more exiting debates and events? ORANGU CAFÉ is your relaxing hub where you can enjoy a calm cup of coffee, delicious sandwiches, crunchy salads, and freshly baked cakes. Our sustainable principles apply to everything we serve with attention to organic and high-quality ingredients.

Come and visit us!

OTTO MØNSTEDS FOND

TIL STUDERENDE

Kom og mød os  
på stand 209

# GRATIS LUNCH TICKET

Til de første 50 ...

Vi sender de flittige ud og får dem klogere hjem

Den danske storkøbmand og fabrikant, Otto Mønsted, fik selv inspiration til margarineproduktion i udlandet, og den viden han tog med hjem, udviklede han til et af Danmarks største industrieventyr som grundlægger af bl.a. OMA Margarine. Derfor er det helt i Otto Mønstedes ånd at sende landets kvikke, flittige studerende ud i verden for at komme klogere hjem og derigennem bidrage til Danmarks handel og industri.

Sidste år blev en femtedel af fondens samlede uddelingsramme på 20 mio. kroner brugt på at gøre det muligt for herboende studerende at udveksle viden, inspiration og metoder. 519 studerende fra danske universiteter fik et legat på 10.000 kroner som bidrag til et studierelevant udlandsophold. De studerende har forinden, via fondens digitale ansøgningssystem på hjemmesiden, indsendt en ansøgning om støtte til et meritgivende studie- eller praktikophold i udlandet. Og her i 2022 har fonden på samme måde uddelt 9 mio. kroner til over 900 studerende, der endelig kan komme ud i verdenen igen efter Covid-pandemien.

# MEET THE 8 DANISH UNIVERSITIES AT THE DIREC AREA

## Where Science Meets Business

- ▶ Meet SONO - a soft robot made of silicone that communicates through movement and sound.
- ▶ See how artificial intelligence can improve the programming of robots, and meet our software researchers who ensure both facilitation and lightning fast execution of artificial intelligence.
- ▶ Explore intelligent control of traffic lights, urban water systems and domestic heating, using machine learning
- ▶ Try a demo of operation to control a drone swarm from a single control console
- ▶ Compete to solve Wordle puzzles against our AI optimization agent
- ▶ Learn how digital transformations focuses on the economic and societal implications of digital and technological developments in the digital age.
- ▶ Explore the implications of digital and other technological developments for economic and societal transformations.
- ▶ Come and talk to Pepper - a robot that can have many different personalities that can be decided by the participants.
- ▶ Experience the latest in intelligent traffic solutions, environmental monitoring and much more.
- ▶ Meet leading experts in AI and Quantum, VR and extended reality and get a feel and touch of the Metaverse.
- ▶ Learn how the universities world-class continuing education offers can bring you and your company to strive for the next level.

Funded by Innovation Fond Denmark  
**Innovation Fund Denmark**

## Energy, Smart Cities and Greentech - twin transition

11:00 - 12:15

SILO<sub>AI</sub>  
Silo AI Lounge

**Stage 5**

**Sector Coupling, AI, and the Impact on Future Energy Systems**  
Organized by University of Copenhagen in collaboration with Energinet, Utiligize, DTU, and Energy Cluster Denmark

Welcoming by Chair Christian Igel

**Scientific Talk** **Energy Sector Coupling and Market Equilibrium - With many synergy potentials between sectors, the challenge is to consolidate technical and economic aspects, including coordinated optimization of operation and modelling of market equilibrium,** Trine Boomsma, Associate Professor, Dept. of Mathematical Sciences, University of Copenhagen

**Scientific Talk** **Machine Learning Tools for Optimization of Energy Sector Coupling,** Yevgeny Seldin, Professor, Head of ML Section, Dept. of Computer Science, University of Copenhagen,

**Business Talk** **System perspectives for a Danish sectorcoupled energy system,** Anders Bavnhoj Hansen, Chefingeniør, Energinet.

**Business Talk** **Forecasting of Electric Vehicles,** Emil Mahler Larsen, CTO, Utiligize

**Panel discussion** **Sector Coupling, AI, and the Impact on Future Energy Systems**

11:00 - 12:15

**Stage 11**

**Your City in 3D - 3D city models - where are we, and where are we going?**  
Organized by WE BUILD DENMARK

Introduction: By moderator, Lars Rachlitz, Innovation Manager, Smart City, WE BUILD DENMARK

**Scientific Talk** **3D City Models and Digital Twins - Where are we today?,** Lars Bodum, Associate Professor, Aalborg University

**Business Talk** **20 years of 3D City models in Denmark,** Jesper Rye Rasmussen, Project Director, Niras

**City Talk** **The City of Vejle - a Digital Twin,** Poul-Henrik Oxlund Skræ, Cand. Arch and 3D Specialist, Municipality of Vejle

**Living lab Talk** **A city digital twin at DOLL Living Lab,** Teddy Sibbern Axelsen, Head of DOLL Living Lab, DOLL Living Lab part of We Build Denmark

**Panel discussion**

## Company presentations

12:30 - 13:00

**Stage 6**

**Meet Schneider Electric at Digital Tech Summit: Microgrid, the future of energy and power management**

**Business Talk** **Microgrid, the future of energy and power management,** Michael Johansen, Solution Architect EcoStruxure Power, Schneider Electric

## Foodtech and Agrotech

11:00 - 12:15

SILO<sub>AI</sub>  
Silo AI Lounge

**Stage 1**

**The Role of Robotics, Drones and AI in Sustainable Farming**  
Organized by the University of Southern Denmark (SDU) in collaboration with Odense Robotics and DIREC

Welcoming talk: Kasper Hallenborg, Director and Head of Department, the Maersk Mc-Kinney Moller Institute, University of Southern Denmark

**Scientific Talk** **Co-designing automated crop management with future cropping systems,** Jesper Svendsgaard, Team Manager, Department of Plant and Environmental Sciences, Plant Facilities and Workshops, Copenhagen University

**Business Talk** **How agricultural robotics can support a sustainable intensification of our outdoor food production,** Ole Green, Founder, Agrobotics ApS

**Scientific Talk** **One Farmer, many intelligent Robots: Challenges and Opportunities,** Anders Lyhne Christensen, Professor, the Maersk Mc-Kinney Moller Institute, University of Southern Denmark

**Business Talk** **How Robots Change Farming,** Kristian Vest Warming, Co-founder & Chief of Farming Robots, FarmDroid ApS

**Business Talk** **Drones in Agriculture,** Jesper Riber Nielsen, Head of Digital Crops, SEGES Innovation

**Panel Debate** **What is the role of robotics, drones, and AI in agriculture in 2030? What kind of impact will technologies have with regards to making the food production more sustainable?**

11:00 - 12:15

Supersession (Main stage)

Navigating the Challenges of Implementing Groundbreaking AI in the Healthcare Sector

Organized by DIREC, Pioneer Centre for AI, CBS, DTU, and Danish Life Science Cluster

Introduction: "Setting the stage concerning potentials and challenges associated with implementing AI solutions in a healthcare context", Thomas Riisgaard Hansen, Managing Director, Digital Research Centre Denmark (DIREC)

**Business Talk** Getting Access to Health Data and Ways to Leverage it in the Health Sector, Simon Meyer Lauritzen, Enversion & Gitte Kjeldsen, Danish Life Science Cluster

**Business Talk** Getting AI innovations implemented internationally, Mads Jarner Brevadt, Co-founder & CEO, Radiobotics & Janus Uhd Nybing, Ledende Forskningsradiograf, Bispebjerg og Frederiksberg Hospital samt Medstifter, Radiologisk AI Testcenter RAIT

**Scientific Talk** Getting Research Implemented in the Daily Practices in a Hospital Setting. Mads Nielsen, Professor, KU and Ise Vejborg, Head of Department, Rigshospitalet

13:00 - 14:15

Stage 1

Defining the future of automation and digitalization in life science

Organized by DTU

Welcome by facilitator Timothy Patrick Jenkins, Assistant Professor, DTU Bioengineering

**Scientific Talk** Automation in the Life Sciences Sector - diagnosis and recommendations, Rasmus J. N. Frandsen, Associate Professor, Head of the Section for Synthetic biology, DTU Bioengineering

**Business Talk** Automation in R&ED at Novo Nordisk; direction and challenges, James Love, Vice President for Automation and Process optimization, Novo Nordisk A/S

**Business Talk** Status on automation and digitalization in biotech life science R&D and manufacturing, Anders Viksø-Nielsen, Senior Director, Novozymes A/S

**Business Talk** Status for automation in Pharma manufacturing, Thomas Bach Nielsen, Director for Robotics and Advanced automation, Product Supply area, Novo Nordisk A/S

**Panel discussion** How do we reach the full potential of automation within Life Science R&D and manufacturing?

14:30 - 15:45

Stage 2

Digital Health: Recent Advances and Opportunities

Organized by AAU and KU

**Scientific Talk** Driving the AI revolution in health through data engineering and data science, Katja Hose, Professor, AAU

**Business Talk** Digital Science and innovation in Pharma, Lars Fogh Iversen, Senior Vice President, Digital Science & Innovation, Novo Nordisk

**Scientific Talk** Enabling real-time monitoring of human pathogens and biodiversity through DNA sequencing, Mads Albertsen, Professor, AAU

**Scientific Talk** Can large language models reason about medical questions?, Ole Winther, Professor, KU

Silo AI Lounge

Company presentations

12:30 - 13:00

Stage 16

Meet Novozymes at Digital Tech Summit: Bringing Digital Technologies into all aspects of a Biotech Company - The BioTech Side

**Business Talk** Novozymes Digitalization Journey - The Biotech side, Federico Decara, Digital Strategy Consultant, Novozymes & Mads Thaysen, Director Process Informatics and Analytics, Novozymes

Transportation, Maritime and Logistics

11:00 - 12:15

Stage 3

Data and digitalization ensuring a sustainable and green shipping industry

Organized by RUC in collaboration with MRA and DMF

Welcoming by Thomas Roslyng, Project manager, Maritime Research Alliance

**Business Talk** Digital tools are needed to support the maritime industry in the challenge of staying up to date on regulation, especially with the increasing amount of environmental regulations, Ronni Palmqvist, director and owner, DanCompliance

**Business Talk** Using Stowage Algorithms to Increase the Utilization of Container Vessels, Rune Møller Jensen, Ceo, Sealytix

**Business Talk** New data flows - Innovation Lead, Sustainable Fleet Projects, Jakob Steffensen, Innovation Lead, Sustainable Fleet Projects, DFDS

**Science Talk** Autonomous shipping logistics and the AEGIS EU H2020 project, Seyed Parsa Parvasi, Ph.D. and post doc. at department of management of DTU

**Business Talk** Combining green technologies to accelerate decarbonisation in shipping, hereunder the usage of autologging to achieve transparency and enable full vessel optimization, Steen Sander Jacobsen, Head of Technology NJORD, Maersk Tankers, Njord

**Business/science talk** Digitalization as an enabler in the green transition", Line Reinhardt, Associate Professor at Roskilde University and head of center for maritime and marine research

**Debate** Panel - Questions

14:30 - 15:45

Stage 6

The Future of the Autonomous Ship

Organized by DTU

Introduction: Nanna Thit, Project Manager, DTU

**Science Talk** Ironies in Automation, Mads Møller, Assistent professor, SIMAC

**Business Talk** AHTI and the Automated future in DFDS, Mads Bentzen Billesø, Head of Innovation & Partnerships at DFDS

**Business Talk** Optimal control for autonomous inspection and cleaning marine robotics - Challenges and opportunities, Abdel Hakim Khaled Saad Amin Ame, Ph.D., AU

**Science Talk** The ShippingLab Autonomous Harbor Bus, Mogens Blanke, professor, DTU

**Business Talk** Mobility as a Service (MaaS), Anirban J Gupta, Innovation Evangelist, TCS Europe

## Cybersecurity, Trust and Fintech

10:00 - 10:45

**V2 Security stage**

**Cybertruslen mod dansk forskning**  
Organized by Teknologiens Mediehus

**Tech Talk** **Cybertruslen mod dansk forskning**, Bernardo David, Associate Professor, ITU

**Scientific Talk** **Smart contracts and high-assurance cryptographic software**, Henrik Larsen, Head of Security, Trust and Identity Services, DKCert

11:00 - 12:15

**Stage 2**

**Privacy, Regulatory Compliance and High-Assurance for Blockchain Systems and WEB3**  
Organized by AU & ITU

Welcoming by Bernardo David, Associate Professor, ITU

**Scientific Talk** **Pitfalls in Automated Market Makers and how to solve them via Privacy**, Bernardo David, Associate Professor, ITU

**Scientific Talk** **Smart contracts and high-assurance cryptographic software**, Bas Spitters, Associate Professor, AU

**Business Talk** **Concordium: The public, permissionless, layer-1 blockchain based on science for regulatory compliance**, Kåre Kjelstrøm, Group CTO & CPO, Concordium

**Business Talk** **Partisia Blockchain - a WEB3 infrastructure with decentralised control of ownership and data**, Kurt Nielsen, President and Co-founder, Partisia

12:00 - 12:45

**V2 Security stage**

**AI som arbejdskraft i cybersikkerhed**  
Organiseret af Teknologiens Mediehus

**Tech Talk** **AI som arbejdskraft i cybersikkerhed**, Christian Damsgaard, Associate Professor, DTU

14:00 - 14:45

**V2 Security Stage**

**Cybertrusler i lyset af Ukraine-krigen**  
Organiseret af Teknologiens Mediehus

**Tech Talk** **Jeppe Teglskov**, Adjunkt, Center for Militær Teknologi, Forsvarsakademiet

**Tech Talk** **Marc Schack**, Adjunkt, Center for Militær Teknologi, Forsvarsakademiet

**Tech Talk** **Lasse Kronborg**, Underviser, Center for Militær Teknologi, Forsvarsakademiet

**Business Talk** **Azure AD – Udnyt de indbyggede sikkerhedsfeatures til beskyttelse af IT-infrastrukturen**, Kim Olsen, Senior Microsoft Specialist, Itavis

12:30 - 13:00

**Stage 15**

**Meet The Alexandra Institute at Digital Tech Summit: Securing critical infrastructure in critical times**

**Business Talk** **Securing critical infrastructure in critical times**, Mohammed Seifu Kemal, Security Architect, PhD, ALEXANDRA INSTITUTTET

12:30 - 13:00

**Stage 5**

**Meet Datto at Digital Tech Summit: Set your Multi-function Security Engineer free and do more with less**

**Business Talk** **Set the Multi-Function Security Engineer free**, Kennet Johansen, Senior Solutions Engineer, Datto

13:10 - 13:40

**Stage 11**

**Meet Fortinet at Digital Tech Summit: IT Security Machine Learning used in in practice, Zero Day detections & Deception**

**Business Talk** **IT Security Machine Learning used in in practice, Zero Day detections & Deception**, Christian Rutrecht, System Engineering Director & Security Specialist, Fortinet

14:30 - 15:45

**Stage 3**

**Secure Software Engineering**  
Organized by AAU

Introduction: "The importance of Secure Software Engineering", René Rydhof Hansen, associate professor, AAU

**Scientific Talk** **IoT Software - How bad is it really?**  
Jens Myrup Pedersen, professor, AAU

**Business Talk** **OT Security - Why isn't it getting any better?**  
Casper Bladt, Senior IT/OT Security Consultant, En Garde Security

**Scientific Talk** **Formal methods for software security**, Thomas Jensen, professor, DIKU/INRIA

**Business Talk** **How to survive catastrophes**, Daniel Lux, CEO, Seluxit

## Smart Manufacturing

11:00 - 12:15

**Stage 6**

**Enabling smart production through use of Digital Twins**  
Organized by MADE

Setting the scene by facilitator: "How far have digital twins come?"

**Scientific Talk** **Manufacturing with Digital twins**, Jesper Hattel, Professor, Department of Civil and Mechanical Engineering, DTU

**Business Talk** **Digital Twin-Based Virtual Factories**, Emre Yildiz, Digitalization and Simulation Lead, Vestas Wind Systems A/S

**Business Talk** **How to approach implementation of Digital twins without a house full of experts**, Christian Remi Wewer, Specialist and ph.d.-student, C.C. Jensen

**Business Talk** **Predicting quality of medical device using a digital twin**, Roger de Reus, Senior Assembly Engineer, Device Manufacturing Development, Novo Nordisk A/S.

14:30 - 15:45

**Stage 4**

**Digital Twins for Digital Design and Quality Assessment in Production**  
Organized by University of Copenhagen in collaboration with Vision Denmark and The Ministry of Higher Education and Science

Introduction: Kenny Erleben, Professor, Department of Computer Science, University of Copenhagen.

**Scientific Talk** **Populations of Digital Twins – Why are human models difficult?**, Sune Darkner, Associate professor, Department of Computer Science, University of Copenhagen.

**Industry Talk** **Jaws**, Torkan Gholamalizadeh, Scientific consultant, 3Shape ApS

**Industry Talk** **Walk the Talk**, Paul Schreiner, Researcher, Rokoko

**Scientific Talk** **Hips**, Faezeh Moshfeghifar, Department of Computer Science, University of Copenhagen.

**Scientific Talk** **What is this supposed to look like?**  
Jeppe Revall Frisvad, Associate Professor, DTU Compute, Technical University of Denmark.

## Company presentations

12:30 - 13:00

**Stage 3**

**Meet Cellnex at Digital Tech Summit: Bridging landscapes with reliable connectivity – Transform the world's resiliency and prepare for the next digital wave**

**Interview sessions** "What pain-points can a Private Network relieve and what are the main messages?", **How DAS is the optimal solution when it comes to indoor connectivity – Closing the gap inside out**, "The "As a Service model?" seen in the eyes of the current state of the world", Morten Ekebjærg, Managing Director, Cellnex Denmark & Ester Montorio, Global head of Marketing, Cellnex Telecom

16:00 - 16:30

**Stage 4**

**Meet Hexagon at Digital Tech Summit: Digital reality solutions empowering an autonomous, sustainable future**

**Business Talk** **Digital reality solutions empower an autonomous, sustainable future**, Adrian Park, Vice President, Presales Europe, Middle East, India and Africa, Hexagon ALI (Asset Lifecycle Intelligence)

11:00 - 12:15

**Stage 15**

**What is the future of Co-bots**

Organized by University of Copenhagen and University of Southern Denmark in collaboration with Vision Denmark and Odense Robotics and The Ministry of Higher Education and Science.

Introduction: Speaker will be announced

**Trends Scientific Talk/business Talk** **Søren Elmer Kristensen**, Project Director, Odense Robotics

**Scientific Talk/Business Talk** **How to most easily tell a robot what to do?** Kenny Erleben, Professor, University of Copenhagen and Matias Søndergaard, Co-founder and Chief Product Officer, Rokoko

**Business Talk** **LOFT Mobile Service Robot with Safe and Social-Aware Navigation for Construction**, Poramate Manoonpong, Professor, University of Southern Denmark and Mads Bendt, Founder of Capra Robotics™ ApS

**Business Talk** **High-Fidelity Digital Twins of Collaborative Robots**, Emil Madsen, Digital Twin Specialist, Universal Robots and Simon Søndergård Taber, R&D Manager, Universal Robots

14:30 - 15:45

**Stage 15**

**Strengthening the Digitalization and Robotization of the Construction Sector**

Organised by Centre for Large Structure Production, University of Southern Denmark, in collaboration with Odense Robotics

Welcoming Talk: Christian Schlette, Professor, SDU Robotics, the Maersk Mc-Kinney Moller Institute, University of Southern Denmark

**Business Talk** **From full automatic 3D construction printing of low rise housing to large scale concrete structures**, Henrik Lund-Nielsen, Founder and General Manager, COBOD International A/S

**Business Talk** **3D printing with a sustainable mindset**, Troels Dam Madsen, Associate Design Director – Digital Practice, Henning Larsen Architects

**Scientific Talk** **3D concrete printing – the light of structural engineering**, Henrik Stang, Professor and Center Leader, Villum Center for Advanced Structural and Material Testing, Danish Technical University

**Business Talk** **Think Outside the nozzle – Leveraging additive manufacturing (AM) to develop more flexible, efficient, and sustainable structures and construction**, Frank Rosengreen Lorenzen, CEO, Danish AM Hub

**Scientific Talk** **Digitalization and robotization for Construction 4.0**, Christian Schlette, Professor, SDU Robotics, the Maersk Mc-Kinney Moller Institute, University of Southern Denmark

**Panel debate** **What are the current challenges to adapt 3D concrete printing in DK at scale?** With participation of Cat Huang, Partner, BIG – Bjarke Ingels Group

## Democracy, Govtech and Digital Regulation

11:00 - 12:15

Stage 4

**Resilient digital democracy - What is it? How do we create it?**  
Organized by RUC

Introduction: "What is resilient digital democracy", Marcus Lantz, post. doc., Roskilde University

**Business Talk** **Should the North unite against the challenges facing our (digital) democracy?**, Tobias Bornakke, Partner, Analyse & Tal

**Scientific Talk** **Digital democratic society for all?** Naja L. Holten Møller, Assistant professor, University of Copenhagen

**Business Talk** **The legislative process and emerging tech**, Michael Birkebæk Jensen, Partner, KPMG

**Scientific Talk** **Can digital democracy be deliberative?** Sine N. Just, Professor, Roskilde University

14:30 - 15:45

Supersession (Main stage)

**AI and ethics: Can AI Even Be Ethical?**

Organized by ITU, KU, RUC, Pioneer Centre for AI & D-Mærket

Welcoming talk: by session chair, Miguel Sicart, ITU

**Scientific Talk** **What do we talk about, when we talk about ethics and AI?** Irina Shklovski, Professor, KU

**Scientific Talk** **Trustworthy discussion of AI and Ethics**, Mads Nielsen, AI Pioneer Center

**Scientific Talk** **Ethical entanglements**, Sine Just, The ADD project, Professor, RUC

**Business Talk** **How do we create trustworthy algorithms and AI? We need accountability 2.0!**, Mikael Jensen, Director, D-mærket/D-seal

**Business Talk** **Just because you can doesn't mean you should - how big tech employs the responsible use of AI**, Niels Grønning, Senior Specialist (Data & AI), Microsoft

**Debate** **Should we have AI modelling mood, behavior and mental health? & What is the benefit, and the pitfall, of these kinds of models applied to the world?**

SILO<sub>AI</sub>

Silo AI Lounge

14:30 - 15:45

Stage 5

**NLP, fake news and social media**

Organized by ITU

Welcoming talk: "The many faces of Fake News", by session chair, Luca Rossi

**Scientific Talk** **Information disorders and collective emotions on social media**, Marina Charquero Ballestar, Postdoc, AU

**Scientific Talk** **Editorial media and social media platforms: it's complicated**", Aske Kammer, RUC

**Business Talk** **Fact-checking is beyond true or false**, Daniel Hansen, tjekdet.dk

**Business Talk** **Complexities of tackling the challenge of misinformation at scale: tools and possibilities for researchers**, Nicole Lyon, Meta

**Debate** **Understanding reality behind fake news and what can we do about it?**

## Technological megatrends and Emerging technologies

11:00 - 12:15

Stage 10

**Chip Design in Denmark**

Organized by DTU

Introduction: "The Many Opportunities in the Danish IC Industry", Ketil Julsgaard, Global Head of IC Development, WSA

**Scientific Talk** **Open-source chip design in university education**, Luca Pezzarossa, Assistant Professor, DTU

**Business Talk** **FPGA prototyping of digital IC's of a hearing aid**, Michael da Costa Carneiro, Digital IC group manager, GN Hearing

**Business Talk** **FPGA Pre-silicon Validation - Getting a head start on Validation and SW development**, Thomas K Joergensen, Hardware and Validation Manager, Microchip

**Scientific Talk** **The FLOPS, the Wall, the Numbers**, Alberto Nannarelli, Associate Professor, DTU

**Business Talk** **Low power Bluetooth IC in hearing instrument**, Kehuai Wu, Principal Digital IC Engineer, Demant A/S

11:00 - 12:15

Stage 7

**A Quantum Technology Update**

Organized by University of Copenhagen and Danish Quantum Community

Welcoming by moderator Bent Dalager, Partner, KPMG NewTech

**Danish use-case** **Power grid optimization with quantum computers**, Brynjar Sævarsson, PhD-student, DTU Electric Power and Energy

**Business Talk** **Quantum computing at Amazon Web Services**, Michael Kastoryano, Senior Research Scientist Amazon Web Services

**Scientific Talk** **Steps towards a universal quantum computer (emulator, annealer, simulator, computer) - classic/quantum hybrid - cloud**", Johannes Borregaard, Assistant Professor, Technical University, Delft

**Business Talk** **Integrated optics for quantum technology**, Leif Oxenløwe, Professor, DTU Electro

Panel discussion

14:30 - 15:45

Stage 7

**The Danish Quantum Eco-system**

Organized by University of Copenhagen and Danish Quantum Community

Welcoming by Moderator Natasha Friis Saxberg, CEO, Danish ICT Association (ITB)

**Scientific Talk** **Evolution of the Danish Quantum Eco-system**, Peter Viereck, Danish Quantum Community

**Business Talk** **Kvantify, a new Danish quantum software start-up**, Sofie Lindskov Hansen, Quantum Application Specialist, Kvantify

**Scientific and Business Talk** **QDevil - from academic start-up to industrial supplier in 6 years**, Ferdinand Kummeth, Founder, QDevil

**Scientific Talk** **Quantum for Life**, Professor Matthias Christandl, Department of Mathematics, University of Copenhagen

Panel Discussion

14:30 - 15:45

Stage 10

**(Embedded) High Performance Computing**

Organized by DTU

**Scientific Talk** **High-Performance Computing use-cases in Green Energy Systems**, TBC

**Business Talk** **Fintech and High-Performance Computing**, TBC

**Business Talk** **Embedded systems and performance**, TBC

Technological megatrends and Emerging technologies

11:00 - 12:15

IDA stage

Potentials and barriers for the development of the Danish quantum eco-system and start-ups

Organized by IDA and DI Digital

Denmark is said to be among the leading nations when it comes to quantum research. With a strong research focus and a new NATO quantum center to be established, we're off to a shiny future. Or are we?

Speakers:

Mark Jones, Co-founder, Molecular Quantum Solutions ApS  
 Jørgen Ellegaard Andersen, Professor, Qpurpose  
 Niels Nielsen, founder, 2xN Ventures  
 Niels Nielsen, founder, 2xN Ventures  
 Ulrich Busk Hoff, Senior Adviser, DTU

Company presentations

12:30 - 13:00

IDA stage

Meet Computerome at Digital Tech Summit:  
 DELPHI: Denmark's First Cloud Environment  
 For Sensitive Health Data Research

**Business Talk** Christine Overgaard Rasmussen, Head of Data Science, Computerome, Danish National Life Science Supercomputing Centre

**Business Talk** Hossein Aghili, Head of Development, Computerome, Danish National Life Science Supercomputing Centre

DIGITAL TECH SUMMIT  
 25- 26 OCTOBER 2022  
 BELLA CENTER COPENHAGEN

STAND #327

<https://techpeople.dk/jobkarriere>

projekt:værktøjsdagen

- Projekt:værktøjsdagen giver indsigt i de sidste nye værktøjer, metoder og virkemidler for projekter og projektledelse.
- Projekt:værktøjsdagen er stedet, hvor du bliver klogere på de nyeste værktøjer, der understøtter og effektiviserer projektledelsen i det daglige.
- Her møder du ligesindede og lærer af deres erfaringer med at vælge, anvende og implementere de rette værktøjer.

Mød også Antura, Hexagon, Ida Projektledelse, FlowIt, Projectum, Canea, Cobraid, Airborne ...

Mød os på område 329

Projekt:værktøjsdagen er arrangeret af

Business Inside Technology

11:00 - 12:15

**Stage 16**  
**Doing business with the European Spallation Source**  
 Organized by BigScience.dk

Welcoming talk by moderator Esther Davidsen, BigScience.dk Network Manager, Danish Technological Institute

**Business Talk** **ESS industrial collaboration and technology transfer**, Jimmy Binderup Andersen, Head of Innovation and Industry, European Spallation Source

**Business Talk** **ESS IT investments required for operation**, Jesper Rude Selknaes, Data Systems and Technologies Group Leader, European Spallation Source

**Business Talk** **BigScience.dk – the gateway to the Big Science market**, Arne Jensen, Project Manager, DTU

13:30 - 14:15

**Stage 2**  
**Putting responsible AI to work: A new Danish 'AI sandbox' build on public-private partnerships**  
 Organized by Confederation of Danish Industries in collaboration with EY and Microsoft Denmark

**Business Talk** Line Haaning Løkken, Digitalisation Consultant, DI

**Business Talk** Søren Mørk, Director of AI Risk, EY Denmark

**Business Talk** Daniel Aunvig, Head of Data and AI, Microsoft Denmark

SILO<sub>AI</sub>  
 Silo AI Lounge

14:30 - 15:45

**Stage 16**  
**Nordic State of AI**  
 Organized by Silo AI

**Business Talk** **Building value with AI – examples of implemented AI solutions**, Niko Vuokko, Chief Technology Officer, Silo AI

**Panel discussion**

Company presentations

10:00 - 10:30

**Stage 5** **Meet Itavis at Digital Tech Summit: Azure AD – Udnyt de indbyggede sikkerhedsfeatures til beskyttelse af IT-infrastrukturen**

12:30 - 13:00

**Stage 15** **Meet The Alexandra Institute at Digital Tech Summit: Securing critical infrastructure in critical times**

12:30 - 13:00

**Stage 3** **Meet Cellnex at Digital Tech Summit: Bridging landscapes with reliable connectivity – Transform the world's resiliency and prepare for the next digital wave**

12:30 - 13:00

**Stage 16** **Meet Novozymes at Digital Tech Summit: Bringing Digital Technologies into all aspects of a Biotech Company – The BioTech Side**

12:30 - 13:00

**Stage 5** **Meet Datto at Digital Tech Summit: Set your Multi-function Security Engineer free and do more with less**

12:30 - 13:00

**Stage 7** **Meet Tata Consultancy Services (TCS) at Digital Tech Summit: Mobility as a Service (MaaS)**

12:30 - 13:00

**IDA stage** **Meet Computerome at Digital Tech Summit: DELPHI: Denmark's First Cloud Environment For Sensitive Health Data Research**

12:30 - 13:00

**Stage 6** **Meet Schneider Electric at Digital Tech Summit: Microgrid, the future of energy and power management**

12:30 - 13:00

**Stage 4** **Meet Systematic at Digital Tech Summit**

13:10 - 13:40

**Stage 11** **Meet Fortinet at Digital Tech Summit: IT Security Machine Learning used in practice, Zero Day detections & Deception**

13:10 - 13:40

**Stage 4** **Meet Microsoft at Digital Tech Summit**

16:00 - 16:30

**Stage 4** **Meet Hexagon at Digital Tech Summit: Digital reality solutions empowering an autonomous, sustainable future**

Digital Talents  
- Skills of tomorrow

Tech Entrepreneurship  
- Startup Nation Denmark

10:00 - 10:45 **TALENT stage**

**Building resilience with talent**  
Organized by Max Training

**Business Talk** Building resilience with talent,  
Joris Mertens, Developer Advocate, IBM Z

11:00 - 12:15 **TALENT stage**

**The Power of Talent**  
Organized by Digi-Talks

**Business Talk** Iris Isabella Englund, CEO & Founder, Play Your Talent

13:00 - 14:15 **TALENT stage**

**Digital Efter(ud)Dannelse / Continuing education - digital competences now and in the future**  
Organized by DTU

Introduction: Camilla Gudrun Poulsen,  
Digital Competences Manager, DTU Compute

**Business Talk** Homo Digitalis, Natasha Friis Saxberg,  
CEO, IT-Branchen

**Business Talk** Companies' use of further and continuing education and the need for competence development,  
Mette Nielsen, Specialist Consultant, Continuing Education, DI

**Business Talk** The journey of DIGITAL NOW,  
Martin Frimodt, Director, Head of Tax Technology, KPMG Acor Tax

**Scientific Talk** A university perspective,  
Line Katrine Harder Clemmensen, Associate Professor,  
Head of studies continuing education, DTU Compute

**Scientific Talk** Future competences and formats,  
Tobias Høygaard Lindeberg, Vice President, Tænk tanken DEA

**Scientific Talk** Experiences with continuing education and a taster of the 'Artificial Intelligence' course,  
Thomas Bolander, Professor, Ph.D., DTU Compute

14:30 - 15:45 **Stage 1**

**Skills of tomorrow**  
Organized by CBS

Advanced Digital Skills in Mainstream Business School Education  
Introduction: Kim Normann Andersen, Professor, CBS

**Scientific Talk** From Business School perspective,  
Raghava Rao Mulkamala, Associate professor, CBS

**Business Talk** From Cap Gemini perspective, Samay Mir,  
Country Lead & Senior Director - Head of Data Science,  
Data Engineering & AI

**Scientific Talk** Taking a programme perspective,  
Lars Haahr, Teaching Associate Professor at the department of management director of studies on the executive master's degree programme in digital innovation.

Panel: Discussion

9:00 - 10:00

**STARTUP Main stage**  
**Pitches: University Startups**

Organized by Venture Cup,  
Open Entrepreneurship and DIREC

9:30 - 12:00

**STARTUP IGLOO stage**  
**Climate Hackathon - Ideate on business opportunities for a green transition**

Organized by KRING Venture Studio

Jacob Madsen, CEO, KRING  
Luna Gyalokay, Senior venture builder, KRING  
Christoph Brandin, Venture building partner, KRING  
Mads Misiak Friss, Venture building partner, KRING

10:15 - 11:00

**STARTUP Main stage**  
**Building the future of startups through innovation in Education**

Organized by Open Entrepreneurship

**Panel debate** Michael Mose Biskjær, Lektor and researcher,  
Aarhus University; Thomas J. Howard, Associate Professor, DTU

11:00 - 12:00

**STARTUP SQUARE stage**  
**One step ahead of investors: Simplifying ESG for early-stage companies**

Organized by PreSeed Ventures

**Workshop** Alexander Viterbo-Horten,  
General Partner of PSV Tech01, PreSeed Ventures

Tech Entrepreneurship – Startup Nation Denmark

11:00 - 12:00

STARTUP Main stage

Cyber Pitches with Cyber Hub x DigitalLead

Organized by Cyber Hub x DigitalLead  
Michael Bjørnlund, Managing Partner - Emerging Tech, Rockstart; Lars Neupart, Business Angel, DanBAN; Jonas Roiy, Digital Transformation and Industry Advisor, Microsoft; Kristoffer Buch, Head of Cyber Hub by DigitalLead, DigitalLead

11:15 - 12:00

STARTUP Main stage

Startups by design: getting out of the sandbox to build big business

Organized by Open Entrepreneurship  
**Debate** Michael Wiatr, Entrepreneur, Investor and Leader, Antler and Draffhound  
Ditte Rude Moncur, SVP Digital, Vækstfonden

12:00 - 12:45

STARTUP Main stage

Speed Dating and tues

Organized by Venture Cup Denmark

14:15 - 15:00

STARTUP Main stage

Beyond profit: how a positive societal impact is driving investments

Organized by Open Entrepreneurship  
**Debate** Anne-Louise Thon-Jensen, Partner & Co-founder, SDG Invest & Vår Ventures; Thomas Høgenhaven, Managing Partner, Planetary Impact Ventures; Erik Balck Sørensen, Managing Partner, Vækstfonden

14:30 - 15:30

STARTUP SQUARE stage

How to act as and with an investor in research based start ups from all Danish universities

Organized by Open Entrepreneurship  
**Debate** Jes Broeng, Director DTU Entrepreneurship; Jesper Lilledal, Partner in VF Venture, Vækstfonden

14:30 - 15:45

STAGE 11

Start-up Learnings from San Francisco Bay Area and Copenhagen

Organized by CBS  
**Debate** Mads Bødker, Associate Professor at the Department of Digitalization, Copenhagen Business School  
J.P. Allen, Guest Professor at the Department of Digitalization, Copenhagen Business School  
Kenneth Salomonsen, Funding and Partnership Manager, CSE Copenhagen School of Entrepreneurship

14:30 - 17:00

STARTUP IGLOO stage

Startup Survival Lab

Organized by Innovation Centre Denmark, Tel Aviv and Cyber Hub x DigitalLead  
**Workshop** Lasse Vinther-Grønning, Executive Director, Innovation Centre Denmark  
Kristoffer Buch, Head of Cyber Hub, Cyber Hub  
Michaela Andersen, COO of AI Innovation House & responsible for AI & Tech, Hands-On Mikrofonden  
Ajmir Safi, Internationalization Advisor, DigitalLead & Ministry of Foreign Affairs of Denmark, The Trade Council  
Sidsel Skovborg, Senior Innovation Manager, DigitalLead  
Christian Kaiser Aarre, Manager, Strategic Partnerships, IBM  
Niels Miling, Senior Innovation Manager, DigitalLead

15:15 - 16:00

STARTUP Main stage

Beyond profit: how a positive societal impact is driving investments

Organized by Open Entrepreneurship  
Jon Sigvert, Co-founder & CEO, Reel  
Michael Bjørnlund, Managing Partner, Emerging Tech, Rockstart  
Hanne Breddam, Board Member, C2IT Greenhouse  
Erik Balck Sørensen, Managing Partner, Vækstfonden

16:00 - 17:00

STARTUP SQUARE stage

Cross-university collaboration with in entrepreneurship programmes

Organized by Venture Cup Denmark  
**Business talk** Morten Ugelvig Andersen, CEO, Venture Cup Denmark  
Stephanie Clemente, Entrepreneurship Educational Developer, COPENHAGEN SCHOOL OF ENTREPRENEURSHIP CBS  
Jannek Solgaard, Business Developer, University of Southern Denmark

16:15 - 17:00

STARTUP Main stage

Europe's competitive edge: GDPR

Organized by Open Entrepreneurship  
**Business talk** Shomit Ghose, Start-up advisor, coach and board member, University of San Francisco, UC Berkeley College of Engineering & University of California

PARTNERS

VENTURE CUP DENMARK – CO-ORGANIZER AT DIGITAL TECH SUMMIT'S STARTUP AREA

Maybe you are curious about life as an entrepreneur? Maybe you have a brilliant business idea, but need a co-founder with skills other than your own? Maybe you have a startup that is open to taking in student workers or interns?

This year Venture Cup Denmark is matching students and startups at Digital Tech Summit's Startup Area. Meet your next co-founder, student employee or startup adventure as we facilitate the matchmaking at our booth!

At the booth in the middle of the Startup Area you can meet us and participate in our two ongoing matchmaking events:

Idea Competition

At the Idea Competition you can bring a friend to work with and ideate on ways to make Roskilde Festival more sustainable. You can also come by on your own and we will pair you up with other students or teams.

The best teams get the opportunity to win tickets to go to Roskilde Festival 2023 with The Circular Lab to test their ideas on festival guests.

So come by with a creative mind and innovative green ideas.

Wheel of opportunities

Do you have a startup that needs co-founders, team members, student workers or interns? Or are you a student looking for career opportunities? Then post on our Wall of Opportunities and win prizes by spinning the Wheel of Opportunity!

You can win prizes, including but not limited to, Just Eat gift certificates, ceramic workshops hosted by The Fiddlerly or STATE energy drinks to boost your day.

Hope to see you at the startup area!

Digital Tech Summit

VENTURE CUP DENMARK

We can't solve the grand challenges we face without open and radical collaboration.

At DTS Collaboration Zone THIRDROOM launches the first digital platform for community powered collaboration based on Nordic values and FAIR data principles.

THIRDROOM works to create the best possible conditions for the future generation to solve grand challenges through cross-disciplinary and cross-sectoral collaboration.

**INTRODUCING:  
THE COLLABORATION LETTER**

We are gathering students, researchers, startups, corporates, investors and policy makers to co-create the Collaboration Letter in the DTS Collaboration Zone, and we invite you all to participate!

We believe that we have a unique position in the Nordics to take leadership on creating a resilient, green and tech-based future.

“ More than ever we need to align the eco system for real world action, that's why we're creating **The Collaboration Letter**. Help us shape it in the DTS Collaboration Zone! ”

**Mette Fløe Nielsen**  
General Partner, Vår Venture  
Special Advisor, Thirdroom

**PROGRAM: COLLABORATIVE FIRE-SESSIONS AND MATCHMAKING**

- Everyday: Fireside talks about the main principles of collaboration from DATA, AI to the impact investors role moderated by Jasmina Pless, Dansk Erhverv
- Everyday 14-15: Facilitated collaborative speed dating – drop by and sign up
- Get onboarded to the THIRDROOM platform, and get your portrait taken by our professional photographer
- Post and collaborate on the open challenges on the Challenge Board
- Meet our strong network of mentors and experts in the field of collaboration
- Collaboration Letter, Mainstage, at 16:45 on 26th October by David Budtz Pedersen

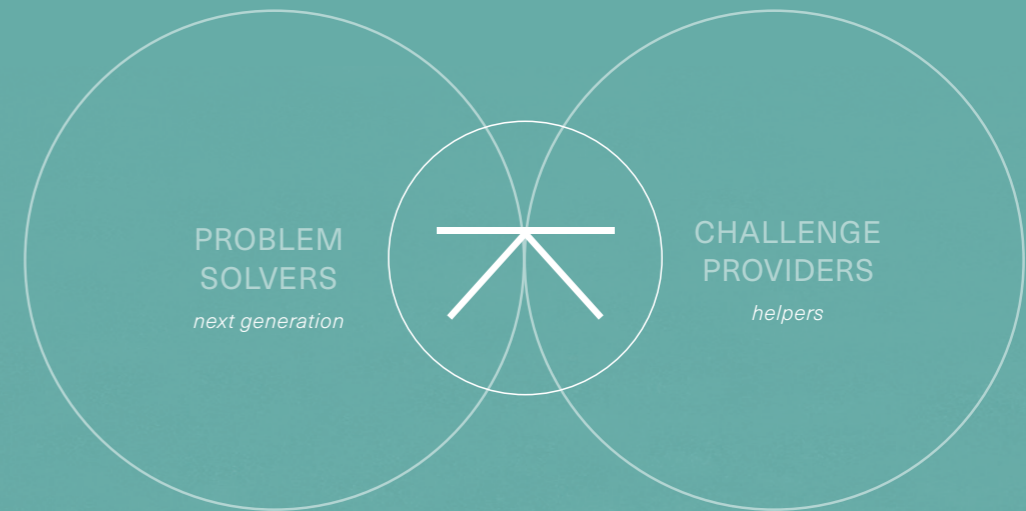

Martin von Haller, Bird & Bird; David Budtz Pedersen, AAU; Freja Ludvigsen, Partnerskabere; Anne Malberg-Horsager, DTU Board Education; Sine Nørholm Just, ADD; Anne Sophie Vinter Hansen, Vækstfonden; Tommy Ahlers; Mette Fløe Nielsen, Vår Ventures

Energy, Smart Cities and Greentech – twin transition

10:00 - 11:15

Stage 10

**Water Data Spaces**  
Organized by DTU in collaboration with CLEAN and Water Valley Denmark  
Introduction/welcome: Peter Steen Mikkelsen, Professor, DTU Sustain

**Business Talk** **The industrial ecosystem around the Water Data Space project**, Ulla Sparre, CEO, Water Valley Denmark

**Business Talk** **Water Data Spaces and sustainability transition – the European policy context**, Chiara Fratini, PhD, Innovation Specialist, DTU Sustain

**Scientific/business talk** **A public sector experience with setting environmental data free**, Nils Høgsted, Head of secretariat, The Danish Environmental Portal

**Scientific/business talk** **International cooperation on digital twins for urban water systems**, Agnethe Nedergaard Pedersen, PhD, VCS Denmark

**Business Talk** **Identifying use cases and partnerships**, Nanna Ravn Rasmussen, Senior Consultant, Business Intelligence, Systematic

**Debate** **How to get involved?**

11:30 - 12:45

Stage 2

**Digital Technologies for Urban Water Management**  
Organized by AAU in collaboration with DIREC

**Business Talk** **Distributed ONLINE monitoring of the Urban waTer cycle (DONUT)**, Mathias Schandorff Arberg, Engineer and expert within urban water management, Aarhus Vand Ltd.

**Scientific Talk** **Machine learning-based control of storm water detention ponds**, Thomas Dyhre Nielsen, professor, AAU

**Business Talk** **Exploiting machine learning to radically change the way hydrodynamic simulations support planning and operation of smart liveable cities**, Morten Grum, CEO and Founder, WaterZerv

**Scientific Talk** **Control of Water Extraction with Reinforcement Learning**, Andrzej Wasowski, Professor, ITU

**Business Talk** **Greater Copenhagen Utilities usage of intelligent components to reduce water losses in the distribution system**, Gitte Rosenkranz, Digitalization Consult, HOFOR Water and Wastewater

10:00 - 11:15

Stage 1

**Greentech and Smart Cities**  
Organised by the University of Southern Denmark (SDU) in collaboration with DIREC and We Build Denmark

Welcoming Talk: Kim Normann Andersen, Professor, Department of Digitalization, CBS

**Scientific Talk** **Smart Sustainable Cities; How to make it happen**, Jan Pries-Heje, Professor, RUC

**Business Talk: "Jumping at the same time**, Lars Rachlitz, Innovation Manager, We Build Denmark

**Scientific Talk** **The outcomes of Smart City Projects: Scaling up and Creating Public Value**, Lasse Bundgaard, Postdoctoral Researcher, CBS and Université Gustave Eiffel

**Business Talk: "How to Reduce Enterprise Value Chain Emissions**, Dr. Alexander Schmidt, Head of Science and Climate Research, Normative ApS

**Scientific Talk** **Internet of Behaviors (IoB): How to Improve QoS and QoE**, Mahyar Tourchi Moghaddam, Assistant Professor, SDU Software Engineering, University of Southern Denmark

**Panel Debate** **The interplay between Greentech and Smart Cities**

10:00 - 11:15

Stage 7

**Digital Energy: Techniques, Flexibility and Sector Coupling**  
Organized by AAU in collaboration with SDU, DTU, AU, Center Denmark and FlexShape

Introduction: Torben Bach Pedersen, Professor, AAU

**Scientific Talk** **The Energy Metaverse – a virtual living lab of the energy ecosystem**, Bo Nørregaard Jørgensen, Professor and Center Lead, SDU Center for Energy Informatics

**Scientific Talk** **Digitalisation for the future weather-driven energy system**, Henrik Madsen, Professor, DTU

**Scientific Talk** **Reinforcement Learning for Green Energy Buildings**, Peter Gjøll Jensen, Assistant Professor, AAU

**Scientific Talk** **Visual Analytics for Energy Data**, Hans Jörg Schultz, Associate Professor, AU

**Business Talk** **How to set data free and couple all energy sectors – A European approach to data spaces and digital innovation**, Søren Skov Bording, Director, Center Denmark

**Business Talk** **Local Sector Coupling and Flexibility in Energy Community Avedøre with FlexShape Aggregator-as-a-Service**, Laurynas Siksnys, CEO, FlexShape

## Foodtech and Agrotech

14:00 - 15:15

Stage 6

**Green solutions for Agri-food Climate Targets – a digital perspective**  
Organized by University of Copenhagen in collaboration with AU, SEGES and co-hosted by the Food & Bio Cluster

Introduction by Svend Christensen, Professor and Head of Department of Plant and Environmental Sciences, University of Copenhagen

**Scientific Talk Towards net zero emissions by total resource accounting**, Fritz Henglein, professor Department of Computer Science, University of Copenhagen

**Scientific Talk Tackling the Carbon footprint of Big Data and Machine Learning**, Raghavendra Selvan, Assistant Professor, Department of Computer Science, University of Copenhagen

**Business Talk How to use agricultural data to develop the green solutions of tomorrow**, Executive director for SEGES Digital Ivar Ravn, SEGES

**Scientific Talk Digitalization and the Green Transition**, Claus Aage Grøn Sørensen, Professor, Department of Electrical and Computer Engineering, Aarhus University

**Scientific Talk The legal aspects of using digital technologies**, Alexandra Andhov, Associate Professor, Dept. of Law, Univ. of Copenhagen

**Panel debate** Moderated by Svend Christensen, Head of Department of Plant and Environmental Sciences

14:10 - 15:25

Supersession (Main stage)

**AI technology for Precision Agriculture**  
Organized by Dept. of Computer Science, Aarhus University

Welcoming by facilitator Ira Assent, Professor, Department of Computer Science, Aarhus University

**Business Talk Deep Learning for Large-Scale Crop Type Classification using Satellite Images**, Joachim Nyborg, Machine learning specialist, FieldSense

**Business Talk Novel techniques for assessing crop water stress and soil moisture**, Rasmus Eskerod Borgstrøm, Vice president, Innovation lab, DHl

**Scientific Talk** Sune Darkner, Associate Professor, Department of Computer Science, University of Copenhagen

**Scientific Talk Intelligent Drones for Autonomous Operations: Design and Challenges**, Emad Samuel Malki Ebeid, Associate Professor, University of Southern Denmark

## Healthtech, Life Science, Sport and Leisure

10:00 - 11:15

Stage 3

**Advanced diagnostics using AI in health**  
Organized by RUC

Welcoming Talk: "Introduction and overview of the field", Henning Christiansen, Professor of Computer Science, Dept. of People and Technology, Roskilde University

**Scientific Talk The camera pill project**, Esmail Nadimi, Professor, Applied AI and Data Science, University of Southern Denmark

**Scientific Talk Explainable AI from a clinical perspective**, Martin G. Tolsgaard, Associate Professor & Senior Scientist, Copenhagen Academy for Medical Education and Simulation (CAMES), Rigshospitalet

**Scientific Talk Registry based AI models in clinical care: long term perspectives**, Ismail Gögenur, Professor of Surgery, Institute for Clinical Medicine, Copenhagen University & Center for Surgical Science Zealand University Hospital

SILO<sub>AI</sub>

Silo AI Lounge

10:00 - 11:15

Stage 15

**Understanding health data – Perspectives from epidemiology research**  
Organized by RUC

Welcoming by Rasmus Kristoffer Pedersen

**Scientific Talk Pandemic research: digging through books and bytes**, Maarten van Wijhe, Assistant professor, Roskilde University

**Scientific Talk Extracting historical data through Collective Intelligence**, Søren Poder, Ph.d.-student, Roskilde University

**Scientific Talk Was the 1889 "Russian Flu, actually a coronavirus pandemic?** Anders Gorm Pedersen, Professor, Technical University of Denmark

**Scientific Talk Telemedicine solutions – building our pandemic preparedness and response resilience**, Thea Kølsen Fischer, Professor, Nordsjællands Hospital

**Debate Preparing for future pandemics. What did we learn from Covid-19 and what lies ahead?**

14:00 - 15:15

Stage 4

**Health Data: Can data visualization save life?**  
Organized by the CBS

Introduction: Christiane Lehrer, Associate Professor at the Department of Digitalization, Copenhagen Business School

**Scientific Talk How to empower medical staff to take decisions using visualizations**, Lars Rønn Olsen, Associate Professor, DTU Health Technology

**Business Talk Influence of public visualizations on governmental decisions and how it could be of use**, Sine Zambach, Postdoc at the Department of Digitalization, Copenhagen Business School

**Business Talk** Statens Serum Institut (SSI)

**Panel What are the potentials and challenges of Health data?** Electronic Survey with audience

## Company presentations

11:45 - 12:15

**Stage 1 Meet Novo Nordisk at Digital Tech Summit: It all starts with courage**

**Business Talk Novo Nordisk: It all starts with courage**, Ole Feddersen, Corporate Vice President, Product Supply Tech Transformation at Novo Nordisk

11:45 - 12:15

**Stage 5 Meet Novozymes at Digital Tech Summit: Bringing Digital Technologies into all aspects of a Biotech Company – The Commercial Side**

**Business Talk Novozymes Digitalization Journey – The Commercial side**, Marc Comer, VP of Digital Transformation and Commercial Excellence, Novozymes

11:45 - 12:15

**Stage 6** **Meet Schneider Electric at Digital Tech Summit: Digital twins along the life cycle of discrete systems**

**Business Talk** **Digital twins along the life cycle of discrete systems,** B. Aksel Jørgensen, CEO, Xcelgo by Schneider Electric

13:10 - 13:40

**Stage 6** **Meet Cellnex at Digital Tech Summit: Bridging landscapes with reliable connectivity - Transform the world's resiliency and prepare for the next digital wave**

**Interview session** "What pain-points can a Private Network relieve and what are the main messages?"; "How DAS is the optimal solution when it comes to indoor connectivity - Closing the gap inside out", "The "As a Service model?" seen in the eyes of the current state of the world"; Morten Ekebjærg, Managing Director, Cellnex Denmark & Ester Montorio, Global head of Marketing, Cellnex Telecom

Democracy, Govtech and Digital Regulation

10:00 - 11:15

SILO<sub>AI</sub>

Silo AI Lounge

Stage 2

**AI in the public sector: the future of governance of, with, and by Artificial Intelligence**

Organized by CBS

Introduction: "Rony Medaglia", "Professor mso at the Department of Digitalization", "Copenhagen Business School"

**Business Talk The European perspective on AI in the public sector: perils and power of governing algorithms**, Gianluca Misuraca, Founder and VP, Inspiring Futures; Executive Director, AI4GOV Master; Team Leader, InTouchAI.eu

**Business Talk The use of AI by the Danish Business Authority**, Marius Hartmann, Head of IT Architecture at the Danish Business Authority

**Scientific Talk Strategies for responsible use of AI in the public sector**, Per Rådberg Nagbøl, Postdoc, Business IT - Information Systems and Digital Innovation, ITU

**Panel What are the potentials and challenges of AI?**

The four speakers above moderated by Rony Medaglia, Professor mso, CBS

14:00 - 15:15

Stage 2

**GovTech – does it make sense in a Danish context?**

Organized by ITU

Welcoming by session chair, Søren Skaarup: "What is GovTech?"

**Business Talk GovTech as an Ecosystem perspective**, Anja Elfrida Hald, Project manager, GovTech Midtjylland

**Business Talk GovTech as an experimental approach**, Anders Juul Rasmussen, Team leader, Danish Digitalization Agency

**Scientific Talk Cooperating with start-ups and smaller companies**, Claus Foss Rosenstand, Digital Hub Denmark professor, AAU

**Scientific Talk GovTech - skills and capabilities**, Lars Rune Christensen, Associate professor, ITU

**Debate How can GovTech benefit the public sector, what does it require from authorities and what are the challenges?**

14:00 - 15:15

IDA stage

**Who keeps you under surveillance at work?**

Organized by IDA

Introduction by Grit Munk, IDA

Panel

Malene Matthison-Hansen, Chairman, IDAs Council of Employees  
Johan Busse, Chairman, Danish Council of Dataethics  
Mads Samsing, Vice-chairman, HK  
Jakob Sørensen, Project Manager, Algorithms, Data & Democracy

Technological megatrends and Emerging technologies

10:00 - 11:15

Supersession (Main stage)

**What happens when the Metaverse meets real life?**

Organized by the University of Copenhagen, University of Southern Denmark in collaboration with Vision Denmark and the Ministry of Higher Education and Science.

Welcoming by Moderator Therkel Sand Therkelsen

**Scientific Talk Why is The Human Component in Immersive Virtual Reality in the Metaverse relevant?** Guido Makransky, Professor in Educational Psychology at the Department of Psychology, University of Copenhagen

**Scientific Talk Ubiquitous Mixed Reality: Designing Mixed Reality Technology to Fit into the Fabric of our Daily Lives**, Jan Gugenheimer, Assistant Professor, The Technical University of Damstadt

**Scientific Talk Training applications of metaverse: possibilities and limitations**, Gunver B Majgaard, PhD, Associate Professor, Game Development and Learning Technology Unit, Mærsk Mc-Kinney Møller Institute, University of Southern Denmark

**Business Talk How VR can make a positive impact in Healthcare and Mental Health?** Simon Lajboschitz, Co-Founder & CEO, Khora

10:00 - 11:15

SILO<sub>AI</sub>

Silo AI Lounge

Stage 16

**Sonic Interactions: Voice, AI & Robots**

Organized by ITU

Welcoming Talk: "What are sonic interactions in Human-Computer Interaction (HCI) and design?", Session chair, Jonas Fritsch, Associate Professor, ITU

**Scientific Talk Voice as a matter of Design**, Stina Hasse Jørgensen, Assistant Professor, ITU

**Scientific Talk Beyond Blips and Bleeps: Nonverbal Sound for Human-Robot Interaction**, Jonas Jørgensen, Ph.D., SDU

**Scientific Talk Improving Learnability in Voice User Interface**, Jichen Zhu, Associate Professor, ITU

**Business Talk The practicalities of leveraging voice and speech in the wild**, Martin Carsten Nielsen, Co-founder and CEO, Alvenir

**Debate How can we support a sustainable development of sonic interactions across academic and commercial partners in a national and international context?**

Company presentation

11:45 - 12:15

IDA stage

**Meet ASSETS+ at Digital Tech Summit: Digital Talents Skills of Tomorrow**

**Tech Talk Blending data-driven analysis and brainstorming**, Irene Spada, PhD Student, University of Pisa

14:00 - 15:15

Stage 7

**Adaptive Interfaces and Eye-tracking**

Organized by Dept. of Computer Science, Aarhus University

**Scientific Talk** Joshua Newn, Postdoctoral Researcher, Lancaster University, UK

**Scientific Talk** Fiona Bríd Mulvey, Senior Researcher, DTU

**Scientific Talk** Teresa Hirzle, Postdoctoral Researcher, University of Copenhagen

**Business Talk** Janus Askø Madsen, CEO and CO-Founder, EyeJustRead

14:00 - 15:15

Stage 3

**Foresight and the future of digitalization**

Organized by RUC

**Business Talk The tech radar that drives digitalization in Danish municipalities**, Marie Aggerstrøm Hansen, special consultant for digitalization and technology, Kommunernes Landsforening (KL).

**Scientific Talk The digital prosumer**, Kristian Borch, Associate professor at Aalborg University and senior scientist at Ruralis, Norway.

**Scientific Talk Strategic Foresight Tool Selection**, Matthew Spaniol, Assistant Professor, Roskilde University, Department of People and Technology

**Business Talk The futures of digitalization**, Klaus Æ. Mogensen, Senior Futurist, Copenhagen Institute for Futures Studies

## Business Inside Technology

10:00 - 11:15

Stage 5

### Artificial Intelligence (AI) In Knowledge Services

Organized by RUC in collaboration with Danish Chamber of Commerce (DE)

Introduction: Ada Scupola, Professor (MSO), Roskilde University

**Business Talk** **Thinking Outside the (Black) Box**, Julia Spicina, Manager, EY Godkendt Revisionspartnerselskab

**Scientific Talk** **Enacting professional service work in times of digitalization and potential disruption**, Frida Perner, Associate Professor, Program Director, Stockholm School of Economics

**Business Talk** **Organizational implications of implementing AI**, Kasper Edwards, Senior Researcher, DTU

**Scientific Talk/business Talk** **Organizational implications of implementing AI**, Kasper Edwards, Senior Researcher, DTU

**Business Talk** **Implementing AI in law firms**, Jørgen Beck Weiss Hansen, Attorney & partner, Lassen Ricard

**Panel** **What are the potentials and challenges of AI for knowledge services?** The five speakers above and Jon Sundbo

SILO<sup>AI</sup>

Silo AI Lounge

10:00 - 10:45

V2 Security stage

### Sådan jager vi cyber-kriminelle

Organiseret af Teknologiens Mediehus

**Business Talk** **Sådan jager vi cyber-kriminelle**, Keld Normann, Security Consultant, Dubex

12:00 - 13:00

Stage 16

### Doing business with CERN

Organized by BigScience.dk

Welcoming talk by moderator Nikolaj Zangenberg, Innovation Coordinator, Danish Technological Institute

**Business Talk** **Doing business with CERN**, Nordine Azizi, Procurement Officer, CERN

**Business Talk** **CERN LHC Run3 computing infrastructure procurement**, Eric Bonfillou, Server Hardware Specialist, CERN

**Business Talk** **BigScience.dk - the gateway to the Big Science market**, Henrik Bak Jeppesen, Business Manager, Danish Technological Institute

14:00 - 15:15

Stage 5

### The data-driven company

Organized by Confederation of Danish Industry/DI Digital

**Business Talk** **A new data economy is unfolding: What are the business opportunities and how can businesses seize them**, Rikke Hougaard Zeberg, Director, DI Digital.

**Business Talk** **Turning mobile network data into value**, Claus Jelle, Sales and Business Development Manager, Division X, Data Insights, Telia Denmark.

**Scientific Talk** **Digitalisation and data-driven innovation - where to start and what to expect - experiences from a university perspective**, Line Clemmensen, Associate Professor, DTU Compute.

**Business Talk** **How Metaverse tech and insights will generate new opportunities**, Michael Harboe, Strategic Advisor, CEO, Virsabi.

**Business Talk** **How do businesses become more data-driven? Here are the lessons learned and the do's and don't's**, Daniel Nørgaard, Partner, Immeo.

**Business Talk** **Learn how digitally accountable companies can get the D-seal and convey digital trust to their customers and consumers and use the D-seal in their supplier relations**, Mikael Jensen, Director at the D-seal.

**Debate** **From the perception of the speakers: "What are the barriers and what are the initiatives needed to promote the digital transition?"**

14:00 - 15:15

Stage 16

### Cyber security startup stories: How to land customers and investors in an ultra-sensitive market

Organized by Cyber Hub x DigitalLead in collaboration with UniqKey & Muninn

Welcoming talk by facilitator Andreas Greve, Business Developer, DigitalLead

**Business Talk 1** **How can emerging tech companies acquire the first (corporate/institutional) sale? Learnings from an EY Entrepreneur of the Year 2022 nominated tech scale-up**, Magnus Cohn, CCO, Uniqkey

**Business Talk 2** **How to get your first large investment as a Danish cyber-startup - and what happens to your company afterwards**, Andreas F. Wehowsky, Founder & CEO, Muninn

**Panel debate** **What can we learn from the journeys of UniqKey and Muninn? What did they do right, what did they mess up? What do they need to do to further scale and succeed?**

11:45 - 12:45

Stage 10

### AI use cases - from code-fun to real world challenges

Organized by Ambolt AI

**Business Talk** **Andreas Berre Eriksen, Founder, Ambolt AI**

14:00 - 15:15

Stage 15

### AI in Audio Applications

Organized by Danish Sound Cluster

Overview: "A visionary forecast of university supported AI in research and education to strengthen Danish Audio industry", Birger Schneider, Independent consultant, Chamaj Consult

**Business Talk** **How AI improves speech recognition (World's first AI supported headset)**, Torben Christiansen, Director of Technology at EPOS

**Scientific Talk** **Data driven AI based algorithm for speech enhancement**, Clément Laroche, senior research scientist, is the Audio Research group at Jabra

**Scientific Talk** **Present and future applications of AI in hearing aids**, Lars Bramsløw, Principal Scientist, Eriksholm Research Center, subsidiary of Oticon

SILO<sup>AI</sup>

Silo AI Lounge

## Company presentations

9:00 - 9:30

Stage 1

**Meet Hexagon at Digital Tech Summit: Digital reality solutions empowering an autonomous, sustainable future**

11:45 - 12:15

Stage 1

**Meet Novo Nordisk at Digital Tech Summit: It all starts with courage**

11:45 - 12:15

Stage 15

**Meet The Alexandra Institute at Digital Tech Summit: Working between applied research and commercial clients**

11:45 - 12:15

Stage 5

**Meet Novozymes at Digital Tech Summit: Bringing Digital Technologies into all aspects of a Biotech Company - The Commercial Side**

11:45 - 12:15

Stage 4

**Meet Datto at Digital Tech Summit: Set your Multi-function Security Engineer free and do more with less**

11:45 - 12:15

IDA stage

**Meet ASSETS+ at Digital Tech Summit: Digital Talents Skills of Tomorrow**

11:45 - 12:15

Stage 6

**Meet Schneider Electric at Digital Tech Summit: Digital twins along the life cycle of discrete systems**

13:10 - 13:40

Stage 6

**Meet Cellnex at Digital Tech Summit: Bridging landscapes with reliable connectivity - Transform the world's resiliency and prepare for the next digital wave**

Digital Talents – Skills of tomorrow

9:00 - 9:45

**TALENT stage**  
**Innovation and technology in tourism – how to challenge a billion dollar industry!**  
 Organized by Hub for Innovation in Tourism

Join us for a tour-de-force of inspiration. In only 45 min you will gain insights into top trends and innovation within the tourism industry.

**HACKATHON and 10.000 DKR in Prize money**  
 Enter the hackathon for a chance to feel the energy and magic in a fast-paced hackathon designed specifically to this day. Come and challenge an industry that has an annual turnover of +139 billions, and is the 4. biggest export in Denmark.

10:00 - 11:15

**TALENT stage**  
**The need for digital talent – how do we close the gap?**  
 Organized by Confederation of Danish Industry/DI Digital

Welcoming by Rikke Hougaard Zeberg, Director, DI Digital

**Scientific Talk** **Main findings in survey on the need for IT-talent in Danish tech-companies,**  
 Thomas Fjeldberg, Senior Manager, Rambøll

**Scientific Talk** **How do universities contribute to solve the talent gap?** Per B. Brockhoff, Rector, IT University of Copenhagen (ITU).

**Business Talk** **How do tech companies navigate through the talent gap?** Henrik Ernlund Pedersen, Country Manager, SAS Institute.

**Political Talk** **What are the regulatory solutions to the talent gap?** Katarina Ammitzbøll, Political Spokesman in IT, The Conservative People's Party.

**Debate** **From the perception of the speakers: What initiatives must be put into action to close the talent gap? And who needs to take action?**

10:00 - 11:15

**Stage 6**  
**The future of hybrid work**  
 Organized by: Dept. of Computer Science, Aarhus University and DIREC

Introduction: Eve Hoggan, Associate Professor, Department of Computer Science, Aarhus University

**Business Talk** **Digital and Remote Teaching,**  
 Claus Riekehr Møller, CEO, Cadpeople

**Scientific Talk** **Blended Realities for Flexible Hybrid Collaboration,** Jens-Emil Grønbaek, postdoctoral researcher, Aarhus University

**Business Talk** **Rethinking the room experience,**  
 Raphaël Briner, CEO, Visible

**Scientific Talk** **An Introduction to the ReWork: Futures of Work Project,** Nina Boulius-Rødje, Associate Professor, Roskilde University

**Panel** **What is the Future of Hybrid Work?**

10:00 - 11:15

**IDA stage**  
**How do we create the future IT industry from a diversity perspective?**  
 Organized by University of Copenhagen

Welcoming by moderator Jakob Grue Simonsen, Head of Department of Computer Science, University of Copenhagen

**Scientific Talk** **Diversity in Computer Science – Design and Artefacts for Equity and Inclusion,**  
 Pernille Bjørn, Professor, Deputy Head of Department for Research, Department of Computer Science, University of Copenhagen

**Scientific Talk** **Value Sensitive Design in Tech,** Dylan Cawthorne, Associated Professor, Maersk Mc-Kinney Møller Institute, SDU

**Business Talk** **Neurodiversity in working life,**  
 Carsten Lassen CEO, Specialisterne

**Business Talk** **Founder Chandre Torpet, Inclusive Matters**

12:00 - 12:45

**TALENT stage**  
**Award ceremony: Best Computer Science Master Thesis of 2021**  
 Organized by Hub for Innovation in Tourism

The award is founded by DI Digital and IDA IT and further supported by the Computer Science Departments in Denmark. The prize of 25.000 DKK is funded by DI Digital and IDA IT.

13:30 - 14:30

**TALENT stage**  
**Fintech Talent – how do we meet the future demand for Talent in Danish Fintech?**  
 Organized by Copenhagen Fintech

Intro: **The boom in Danish Fintechby,**  
 Simon Schou, CIO, Copenhagen Fintech.

Panel debate on meeting the future demand for talent in Danish Fintech

**Speakers and companies will be announced in the digital program**

PARTNERS

Tech Entrepreneurship – Startup Nation Denmark
